

# SURGER-I-NNSBRUCK

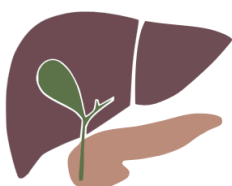

12.-13.12.2017

## HANDS-ON COURSE: LIVER SURGERY

Pre-Congress Course (Multidisciplinary Treatment of Primary Liver Tumours 14.-15.12.2017)

This practical hands-on course preceding our annual meeting for multidisciplinary treatment of HPB disorders gives young surgeons who wish to gain skills and knowledge in liver surgery the chance to actively perform several operations under guidance of experts.

## Invited Faculty:

- David Fuks, *Institut Mutualiste Montsouris, Paris, France*
- Hassan Malik, *Aintree University Hospital, Liverpool, UK*
- Guido Torzilli, *Humanitas Research Hospital, Milan, Italy*
- Benjamin Henninger, *Medical University Innsbruck, Austria*
- Stefan Schneeberger, *Medical University Innsbruck, Austria*
- Christian Margreiter, *Medical University Innsbruck, Austria*
- Romed Hönigmann, *Medical University Innsbruck, Austria*

## Program:

### Clinical lectures:

- Surgical anatomy, access to important structures
- Imaging procedures, resectability, planning the operation
- Current strategies for primary and secondary liver tumours
- Tips and tricks for conventional and laparoscopic liver resection
- 3D-guided stereotactic radiofrequency ablation
- Liver transplantation (basic steps, oncological indications)

### Live operations:

- Case presentations
- Major resection (conventional)
- Laparoscopic resection

### Hands-on workshop:

- Mobilization of the liver, Pringle manoeuvre
- Isolation of the hepatic veins
- Hilar approach to access arteries, portal vein and bile structures
- Intraoperative ultrasound & ablation
- Right and left hemihepatectomy
- Left lateral (laparoscopic) resection
- Segmental- and wedge resection
- Bile duct reconstruction
- Hepatic artery and portal vein reconstruction

## Accreditation:

This educational meeting will provide DFP / CME points through accreditation by the Ärztekammer (Austrian Medical Association) and the EAMCCE.

## Organisation:
